Mayor Church,  
City Hall,  
Toronto.

Dear Mr. Mayor:

As you are aware two university units for overseas service have been established - a battery and an overseas training company. Both these are in need of money, as are all other units, for necessary expenses of organisation and equipment that are not provided for by the Militia Department. The University of Toronto has contributed so largely to all the patriotic efforts during this war that I think it is not out of place for me on behalf of these units to ask you whether grants may be made to each of them from the funds that have been raised for such purposes.

Yours sincerely,

President.
